Press Release

August, 2010

Intrinsic Perennial Gardens, Inc. is excited to announce a new Moor Grass. **Molinia arundinacea** 'Cordoba' is one of Ernst Pagels of Germany last selections. Ernst is responsible for many of the best new Miscanthus introductions along with other perennials. The flowers on this Moor grass emerge in July on long 7'+ stems and slowly color to a vibrant butterscotch color in October. These substantial clumping plants prefer a moist to well drained soil in full sun. The hardiness is zone 4-9. Ten cents for each plant sold, will be donated to a School in Germany where Earnst Pagels nursery was previously located. For more information contact Brent Horvath at 800-648-2788 ext. 15 or brent@intrinsicperennialgardens.com
