Press Release

January, 2007

Intrinsic Perennial Gardens, Inc. is excited to announce the introduction of a new Sedum plant. **Autumn Delight™ Sedum 'Beka' PPAF** is a stable variegated sport of Sedum 'Autumn Joy'. The foliage has a thin green edge with chartreuse yellow centers and is showiest in May. In September light green buds reminiscent of broccoli evolve into russet red domes. The plants reach a mature size of 18" tall and wide. They prefer a well drained soil in full sun. Their Hardiness is zone 4-9. For more information contact Brent Horvath at 815-648-2788 or brent@intrinsicperennialgardens.com.
