Sedum ellacombianum 'Cutting Edge' PPAF

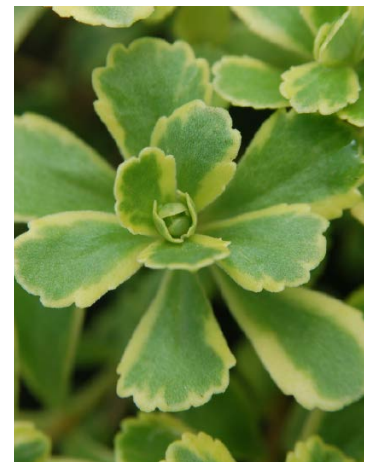

May 2016

Intrinsic Perennial Gardens, Inc. is excited to announce the introduction of a new Stonecrop,

Sedum ellacombianum 'Cutting Edge' PPAF

Sedum ellacombianum 'Cutting Edge' is a yellow edged sport of *Sedum ellacombianum* with an extremely vigorous growth habit. Plants emerge with hints of pink in the yellow edged new growth of spring. Throughout the entire season the short clumping plants only reach around 6" tall and around 12" wide or more. It prefers a well drained soil but tolerates any soil but wet. Plant it in full sun to part shade spring, summer, or fall. The hardiness is zone 3-9. This new *Sedum* combines nicely with other low growing *Sedums* like *Sedum rupestre* 'Angelina'.

Plants are available from Intrinsic Perennial Gardens, For more information on these contact Brent Horvath at 800-648-2788 ext. 15 or BrentH@intrinsicperennialgardens.com
