Sedum x 'Pillow Talk' PPAF and 'Rock Star' PPAF

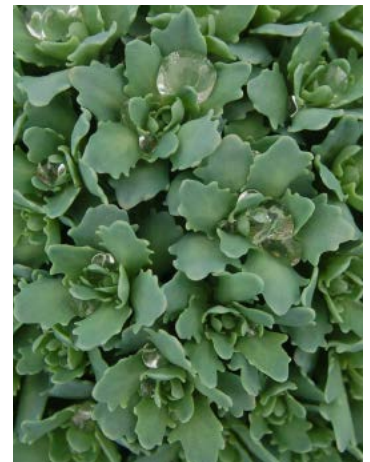

June 2016

Intrinsic Perennial Gardens, Inc. is excited to announce the introduction of two new Stonecrops, Sedum x 'Pillow Talk' PPAF and 'Rock Star' PPAF.

'Pillow Talk' is along the lines of Sedum 'Matrona' in size. It has exceptional hybrid vigor with grey green foliage that can take on a reddish edge as the season progresses. In September huge 5-6"+ heads of magenta and pink bi-color flowers are impressive on the 18-24" reddish stems.

'Rock Star' plants emerge in spring in tight dome shaped mounds like it's relative 'Thundercloud'. In September, the plants bloom with pink bi-color flowers. The short clumping plants only reach around 1' tall and 15-18" wide. Both these Sedums prefer a well drained soil in full sun. The hardiness is zone 4-9. They can be planted in spring summer or fall. Plug liners are available from, Intrinsic Perennial Gardens.

For more information on the plant and licensing, contact Brent Horvath at 800-648-2788 ext. 15 or BrentH@intrinsicperennialgardens.com
